

# MeaWallet™

BY PAYMENTOLOGY

## Mea Digital Cards

For issuers and program managers who  
don't issue a physical card or want to print  
physical cards without sensitive data

## Key Benefits

**Provide privacy, security, and convenience to your customers**

**Increase customer engagement with your app**

**Deploy the solution in mere hours – fast and easy!**

## Why Mea Digital Cards?

Mea Card Data allows the user to see all the card details through an app to use for e.g., online shopping.

**Perfect for program managers without PCI-DSS certification.**

### **Digital-first**

Enable your cardholders to instantly view their full card details from the app and use it for eCommerce checkouts.

### **Suits all needs**

Display card data as text as well as card image, supports Android, iOS SDK, and Web Widget

### **PCI-DSS-compliant**

Ready to deploy in hours.

### **Customizable**

Adapt the design to your brand's look and feel
